EXO / ORIGINAL OPEN SEWING PATTERN

FOUNDATION TEE

Print-at-home long-sleeve sample / Source EXO fixture

FREE / CC0 1.0 - SHARE, CHANGE OR SELL DERIVATIVES

Paper: A4 | Pattern units: centimetres | Print at 100%, no scaling

Source: blender_bridge/fixtures/tee.garment.json (EXO Foundation Tee)

Front and back half patterns are CUT ON FOLD. Sleeve is full width, cut 2 mirrored.

All cut lines include an APPROXIMATE 10 mm outward allowance; fold edge has none.

Dashed interior path = original EXO sewing path, solid exterior = proposed cut path.

Curves are sampled from the fixture; selected notches come from source edge indices.

This is ONE ungraded design sample, with NO fit, seam or ease verification.

PRINT / ASSEMBLE

1 Print every tile at actual size, with pages upright; disable fit-to-page.

2 Check the 50 mm square below with a physical ruler.

3 Assemble pages by pattern name and tile coordinates (A1, B1 ...).

4 Adjacent tiles overlap 10 mm. Align crosshair marks; tape only once aligned.

5 Cut on solid exterior and transfer fold lines and notches to the fabric.

SEWING / TRIAL GARMENT

1 Use a stretch knit and stabilize the shoulder seam as needed.

2 Sew front and back at shoulder seams, right sides together.

3 Attach each sleeve to its matching armhole; match single/double notches.

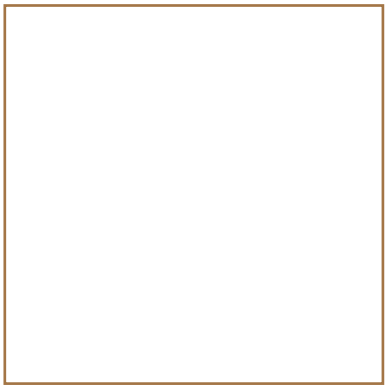

4 Sew sides and underarms. Finish neckline with a measured knit binding.

5 Finish sleeve and body hems with preferred knit technique.

6 Test neck opening, armhole and sleeve ease on a toile before wearing.
