EXO / ORIGINAL OPEN SEWING PATTERN

FOUNDATION TEE

Print-at-home long-sleeve sample / Source EXO fixture

FREE / CC0 1.0 - SHARE, CHANGE OR SELL DERIVATIVES

Paper: LETTER | Pattern units: centimetres | Print at 100%, no scaling
Source: blender_bridge/fixtures/tee.garment.json (EXO Foundation Tee)
Front and back half patterns are CUT ON FOLD. Sleeve is full width, cut 2 mirrored.
All cut lines include an APPROXIMATE 10 mm outward allowance; fold edge has none.
Dashed interior path = original EXO sewing path, solid exterior = proposed cut path.
Curves are sampled from the fixture; selected notches come from source edge indices.
This is ONE ungraded design sample, with NO fit, seam or ease verification.

PRINT / ASSEMBLE

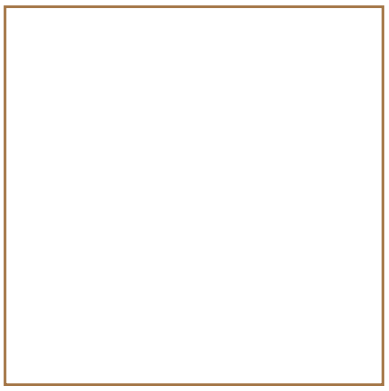

1 Print every tile at actual size, with pages upright; disable fit-to-page.
2 Check the 50 mm square below with a physical ruler.
3 Assemble pages by pattern name and tile coordinates (A1, B1 ...).
4 Adjacent tiles overlap 10 mm. Align crosshair marks; tape only once aligned.
5 Cut on solid exterior and transfer fold lines and notches to the fabric.

SEWING / TRIAL GARMENT

1 Use a stretch knit and stabilize the shoulder seam as needed.
2 Sew front and back at shoulder seams, right sides together.
3 Attach each sleeve to its matching armhole; match single/double notches.
4 Sew sides and underarms. Finish neckline with a measured knit binding.
5 Finish sleeve and body hems with preferred knit technique.
6 Test neck opening, armhole and sleeve ease on a toile before wearing.
